Fencing Specifications & Submission Guidelines

Updated October 2019

Fencing is allowed on YOUR property only with prior approval from the Board of Directors. Below are the guidelines for submitting your fence request. Please be sure to include all items to help expedite the process, thus saving you time and money. Email your submission to: meghan@mwcpaa.com

Remember, any unauthorized fences may result in a fine and be removed at your expense.

Submissions Check List

Hire a surveyor to demarcate both your property line AND the utility easement(s). Although this is an added cost initially, it could save you a lot more than if you need to move your fence. Be sure to include photos taken of the surveyor's flags.

A scaled map of your property that indicates:

1. The property line and utility easement(s)
2. Your proposed fence line
3. Fencing heights for all sides of the fencing (*see specifications below*)
4. Gate access

Photos of the fencing color, material and style you wish to use (*see specifications below*)
